Michigan says farewell to the Department of History, Arts and Libraries

Executive Order No. 2009-36, effective October 1, 2009, abolished the Department of History, Arts and Libraries. The essential functions of the Department of History, Arts and Libraries will be performed by other principal departments in state government.

In response to this Executive Order, Michigan.gov has been redesigned to incorporate the new reorganization of the departments. You will find the various functions and their new web locations listed below.

Getting to Know Chapter 43

Getting to Know Chapter 43 of the Wisconsin State Statutes: Libraries (Part 1)

As announced in the **November 17, 2011**, issue of *Channel Weekly*, the *DLTCL* will facilitate a discussion around libraries and the future by convening a task force in early 2012. The focus of the group is to review *statutory requirements for library systems* [see sections 43.17 through 43.27] with an eye toward making them contemporary with the issues facing libraries and their patrons. The task force will develop recommendations by early fall. The group will be representative of the entire community and will appoint persons based on roles, location, and library type and size.

Perhaps now is a good time to familiarize ourselves with the current scope of Chapter 43. What all is contained in these 11 densely printed pages?

MRS. MEREDYTH COE

Until 1971....

CHAPTER 43.
~~LIBRARIES, MUSEUMS, CIVIC AND COMMUNITY CENTERS,
AND SPECIAL USES OF MUNICIPAL BUILDINGS.~~

- **1971 Senate Bill 47.** Section 15. 43.001 to 43.24 of the statutes are created to read :

Chapter 43 (Libraries)

- 43.001 Legislative findings and declaration of policy. (Essentially, a mission statement; created in 1985)
 - (1) **The legislature recognizes:**
 - (a) The importance of **free access** to knowledge, information and diversity of ideas by all residents of this state;
 - (b) The critical **role** played by public, school, special and academic **libraries** in providing that access;
 - (c) The major **educational, cultural and economic asset** that is represented in the collective knowledge and information resources of the state's libraries;
 - (d) The importance of public libraries to the **democratic process**; and
 - **(e) That the most effective use of library resources in this state can occur only through interlibrary cooperation among all types of libraries and the effective use of technology.**

Libraries as a **Matter of Statewide Concern:** Attorney General's opinion (1987)

- **As introduced** in 1985 Assembly Bill 537, section 43.001 contained a subsection that provided:
 - "The legislature declares that making high quality, publicly funded library resources, services and information readily available to all residents is a **matter of statewide concern.**"
 - Above section ~~deleted~~.
 - Why? Perhaps legislators thought
 - libraries were a matter of **local concern**;
 - **phrase was unnecessary** in light of the other findings and statements of policy.
 - Nevertheless sez the AG, **I believe that section 43.001, as passed, reflects the legislative belief that public libraries are a matter of statewide concern.**

THE
COUNTY
LIBRARY PLANNING
COMMITTEE

Q. Why Should Our County Have a County Library Planning Committee?

A. Wisconsin library law, revised December 1971, provides for appointment of county library planning committees, a method for the voluntary establishment of public library systems and the institution of a state aid program. The county library planning committee is the first step of the plan.

Q. How Can Our County Have a County Library Planning Committee?

A. Any county board may appoint a county library planning committee or determine that an existing county library board shall act in this capacity.

Q. Who Shall Serve on the County Library Planning Committee?

A. This committee, of 7 to 15 members shall reflect the population distribution in the county, shall represent the existing public libraries in the county, and include one member of the county board.

Q. What Does a County Library Planning Committee Do?

A. The committee shall investigate the potential of a public library system in the county, and in cooperation with similar committees in adjacent counties, the possibilities of a multicounty system. A plan will then be developed which will consider present cooperative plans in the county as well as methods to improve or add services so everyone has easy access to public library service.

Q. How Often Does the County Library Planning Committee Meet?

A. The law states that the committee shall meet at least once every three months, and more often on the call of the chairman or a majority of its members. However, the nature of their duties will probably necessitate monthly meetings.

Q. Is Assistance Available From the Division for Library Services?

A. Yes, public library consultants can be obtained from the Division to assist in formulating a plan.

Q. Who Approves the Final Plan Submitted by the Planning Committee?

A. The final plan will be submitted to the County Board and the Division for approval. The final decision to establish a system lies with the County Board. Effective date for establishing a new system is January 1 of the year specified.

Q. What is the New Library Law?

A. Those portions of Chapter 43 of the Wisconsin Statutes which relate to the County Library Planning Committee are:

43.11 COUNTY LIBRARY PLANNING
COMMITTEES

(1) CREATION. Any county board may appoint a county library planning committee under this section. If a county board, in a county where all public library service is administered or coordinated by an existing library board, determines to appoint a committee under this section, the existing library board shall serve as the county library planning committee. The county board shall notify the division immediately upon appointment of the committee.

(2) ORGANIZATION. (a) The county library planning committee shall be composed of not less than 7 nor more than 15 members. The residence of members shall reflect the population distribution within the county. The membership shall include representatives of existing public libraries in the county. One member only shall be a member of the county board. Appointments shall be for 3 years or until the committee's final report is accepted by the county board and the division, whichever occurs first. (b) Annually, the committee shall select a chairman, vice chairman and secretary from its membership. The committee shall meet at least once every 3 months and more often on the call of the chairman or a majority of its members.

Public Library Systems in Wisconsin

In 1971, Wisconsin passed legislation creating public library systems.

The mission of public library systems is to

- promote the development of public library service
- provide open access to public library service
- facilitate the sharing of library resources among public libraries in the system's service area.

43.12 County payment for library service

- County library tax assessed against “non-librariated” municipalities
- Exemptions for “librariated” municipalities
- Minimum 70% payment based on formula using each library’s annual circulation and operating expenditures
- **2005 Wisconsin Act 420.** Law also applies to counties within and adjacent to library system

The Formula, Illustrated

The Formula, Illustrated

$$A \times B/C \times .70 = \text{Payment}$$

$$\begin{array}{l} \text{(A) Number of loans made to} \\ \text{"nonlibrarianed" county residents} \end{array} \times \frac{\begin{array}{l} \text{(B) Total operating expenditures} \\ \text{(- capital expenditures)} \\ \text{(- expenditures of federal funds)} \end{array}}{\begin{array}{l} \text{(C) Total number of loans} \end{array}} \times .70 =$$

Example:

$$143,361 \times \frac{\$1,670,080}{803,443} \times .70 = \$208,599$$

1984 Attorney General Opinion

- The Madison Public Library can charge user fees for any services that fall outside of a library's inherent information-providing functions; **core “library services” must be provided free of charge** to the inhabitants of the municipality.
- Core library services include...
 - Online searching
 - Interlibrary loan
 - Placing holds
 - Public access computers
 - Wireless access
 - DVDs, CDs, audiobooks (rental collection exception)
 - Computer software and games (rental collection exception)

1984 Attorney General Opinion

- Applying this guideline to the various charges and fees established by the Madison Public Library, it is my opinion that only the following may be imposed:
 - Framed pictures
 - Projectors, screens
 - Audio cassette players
 - AM/FM radios
 - Meeting and lecture rooms

43.53 Joint libraries

- Creation
 - ▣ 2 or more adjacent municipalities
 - ▣ County or 1 or more municipalities located in whole or part of the county
- Agreements (Shared governance arrangement)
 - ▣ Board membership
 - ▣ Fiscal agent
 - ▣ Distribution of assets & liabilities if dissolved
- Previously existing library (estab. before 5/8/1990)
- Board appointments (municipal governing body and county board chairperson; 43.54)
 - ▣ 7 to 11 “representative” members
 - ▣ School and government representation

Consensus Building for New Sussex-Lisbon Joint Library Agreement

Sussex may support new library plan. (Sussex Sun, 7/19/2011)

Excerpt: *There may be a consensus building among Village trustees to support a proposal to change the formula that determines how much money the Village and Town of Lisbon each contribute to the operations of the Pauline Haass Library.*

The proposal, however, has not been presented to the Town Board and there have been no public discussions of it by either municipalities. It is unclear when the citizens of the two communities will have an opportunity to review and comment on the proposal.

The proposal calls for each community's contribution to the library to be based on the size of each community's tax base, population and the amount of use of the library by the residents of each community

Presently, the Town and Village each annually pay between \$425,000 and \$450,000, based on their respective commercial and residential real estate values, their tax base, as determined by state authorities. Town Chairman Matt Gherkin has been insisting on a change in that formula because, he argues, Village residents use the library more than town residents and therefore the Village should pay more to support the library.

Dane County Library Service

The Dane County Library Service is the primary public library for residents of all Dane County towns, the villages of Blue Mounds, Brooklyn, Cottage Grove, Dane, Maple Bluff, Rockdale, Shorewood Hills, and the City of Fitchburg. Bookmobile service is provided in those communities which are distant from existing public libraries.

The Dane County Library Service also facilitates delivery service among all public libraries, and provides outreach services to any qualified resident outside the city of Madison.

The County Library Service was created in 1966 in order to assure legal access to public library services for every resident of Dane County. A department of Dane County, it is governed by a nine member citizen board appointed by the County Executive and confirmed by the County Board of Supervisors.

Common School Fund

This fund is as old as Wisconsin. The framers of our state Constitution established this permanent "school fund" and required that its income be applied exclusively *"to the support and maintenance of common [public K-12] schools ... and the purchase of suitable libraries and apparatus therefor."*

Principal

The Fund was established with proceeds from the sale of the 16th Section of each township—nearly 1 million acres of land granted by the federal government to Wisconsin when it became a state. Like other states joining the union at that time, Wisconsin received another grant from Congress of 500,000 acres of land for the purpose of making "internal improvements." Wisconsin's early leaders petitioned Congress for permission to dedicate these lands for public education, as well. Except for about 5,600 acres that remain in trust, all of the lands from these original grants were sold to establish the Fund.

The principal continues to grow, however, because the state's constitution provides that the Fund receives clear proceeds of all fees, fines and forfeitures (including unclaimed and escheated property) that accrue to the state. In addition, the principal of the Fund is used to provide loans to Wisconsin's school districts and municipalities for public purpose projects through the [State Trust Fund Loan Program](#).

Beneficiaries

The Fund's investment earnings are distributed in April to the Department of Public Instruction, which re-distributes them as library aid to all public K-12 school districts in the state. Library aid payments from the Common School Fund may be used to purchase books, newspapers, periodicals, and other media resources. The amount each school district receives is based on the number of children ages 4 through 20 living in the district.

Wisconsin's public school libraries are financially dependent on this aid. For most, the Common School Fund is their only source of funding.

Changing conditions

What was for over 100 years a rich source of principal growth and public education support is being eroded as "clear proceeds" is redefined and governing bodies impose "surcharges" in lieu of fines. Today, the Common School Fund receives less than 10% of the revenue from a typical speeding ticket, for example.

We recognize our responsibility to sustain this constitutionally established form of public education financing and have built strong partnerships with the Fund's beneficiaries in this effort.
